

Staff Report

February 13, 2024

To Board of Education (Public Meeting)

From Sean Nosek, Superintendent/CEO

Re **Superintendent's Mid-Year Report**

This report is presented to the Board for information.

BACKGROUND:

Under the Ministry's Framework for Enhancing Student Learning Policy, all boards are required to have a strategic plan in place for improving student learning outcomes. Over the past four months, the Board has heard of the progress made toward these goals and identified emerging areas of need and future plans.

The superintendent will provide a mid-year report on the activities related to the strategic plan and also share information regarding the next strategic plan cycle to ensure our students continue to be prepared for a lifetime of success.
